

CHFP Certification Reimbursement Policy

In an effort to support the ongoing education of our members, the Oregon HFMA chapter now offers a limited number of CHFP scholarships each year. Scholarship package includes HFMA-paid access to Module 1 (*Business of Healthcare*) and support from the Oregon HFMA Certification Committee. In addition, reimbursement will be given upon the scholar's successful completion of Module 2 (the *Operational Excellence* exam).

If an Oregon HFMA Member completes the CHFP process *outside* of the scholarship process, Oregon HFMA will reimburse that member. Reimbursement will only occur given the following criteria:

1. *Both* modules completed successfully
2. This must be the first time the member has completed the certification process. Lapsed certifications and reexamination fees are not covered.

Oregon HFMA strongly supports the CHFP program and will consider appeals in extenuating circumstances. Appeals for reimbursement consideration should be made to the certification committee via e-mail.
